

Emergency Shower & Eyewash Station Maintenance Checklist

8 planned preventive maintenance tasks · Free PDF from PM Assist

A practical starting point for planned preventive maintenance. Always refer to the manufacturer's O&M manual and site-specific requirements.

Visual Checks

- ☐ Confirm access is clear and the unit is reachable within seconds
- ☐ Check signage is visible and the area is well lit
- ☐ Inspect eyewash nozzles and covers for cleanliness and damage
- ☐ Check self-contained eyewash bottles are sealed and in date

Functional Checks

- ☐ Activate each shower and eyewash weekly and confirm full flow
- ☐ Check the water is tepid, not scalding or freezing

Cleaning & Housekeeping

- ☐ Flush until the water runs clear to remove stagnant water

Record Keeping

- ☐ Record weekly activations and the annual inspection

Maintenance Frequency

Weekly

- Activate and flush every unit
- Check access and signage
- Log the test

Annually

- Full inspection to BS EN 15154
- Flow rate and temperature check
- Replace worn parts
